TERMS OF USE of MediCappbinet!

Last updated: 2 November 2026

1. What it is

MediCappbinet! helps you keep the family medicine cabinet in order and reminds you of therapies, prescriptions, visits, exams and vaccines.

2. Not a medical device

The app gives no medical advice, makes no diagnosis and does not replace your doctor or pharmacist. Always follow your doctor's instructions and the package leaflet.

3. Reminders may fail

Reminders depend on the phone (battery, power saving, permissions, volume, do not disturb, restarts). Do not rely on the app alone for important therapies and make sure notifications and exact alarms are allowed.

4. You enter the data

The app does not check that medicines, doses, expiry dates and times are correct. Check them against the package and the prescription.

5. Liability

The app is provided as is, without warranty. To the extent permitted by law the developer is not liable for damage arising from use or failure of the app.

6. Backups

You are responsible for creating and keeping them. Restoring replaces all current data.

7. Emergencies

In an emergency call your local emergency number (112 in Europe).
